JINGLEFEST

MEDIA KIT AND BRAND GUIDE

Everything you need to make new Jinglefest content that looks like it belongs.

THE IDEA

LOOK

A supermarket flyer crossed with a carnival marquee. Loud, colourful and a bit over the top. Sunbursts, starburst stickers, tear-off coupons and thick dark outlines.

VOICE

Lead with togetherness: let's all get together, meet each other, share food. Warm, short and excited. Talk to parents and students like a neighbour. Use full, friendly sentences.

Everyone is welcome, in every language and at every age. Keep it conversational and never preachy.

DO

- One big message per post
- Say what, when, where and how to join
- Use real numbers: dates, slots, prices

DON'T

- Invent prizes, urgency or claims
- Say "almost full" unless it's true
- Mention undecided activities
- Copy other brands' characters or logos

LOGO

Files are in **01-logo**. SVG files stay sharp at any size and need no font installed.

WHICH ONE

- **Neon cream or gold:** dark or red backgrounds. First choice.
- **Cream or gold:** busy backgrounds, small sizes
- **Ink or red:** light backgrounds, single-colour print

RULES

- Always keep the upward tilt
- At least 180px wide on social posts
- Don't retype it, recolour it or stretch it
- Keep clear space of about the height of the E

COLOURS

Santa Red

Each event has a colour. Bake-Off is Marigold, Band Battle is Night with Pink, Carnival is Pine, Stalls is Mint, Sponsors is Hot Pink, Jinglefest itself is Santa Red.

Headlines on busy art: Cream or Marigold fill with a thick Ink outline. Never red, pink or ink text directly on a sunburst, because it gets lost.

FONTS

CINZEL DECORATIVE

Logo only. Never for headlines.

ANTON

Headlines, buttons, labels. Always capitals.

Shrikhand

Short friendly lines, like "Children's Day special". Use sparingly.

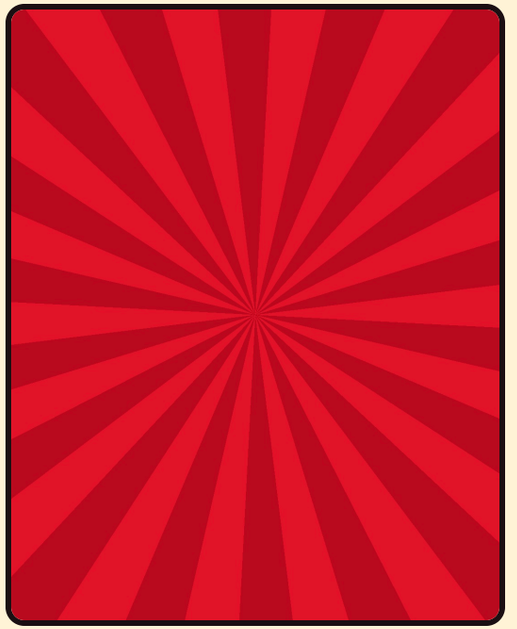

Bricolage Grotesque

All body text and details.

All four are free for commercial use (licences included in **03-fonts**). All four are on Canva and Google Fonts, so most people won't need to install anything.

BACKGROUNDS AND STICKERS

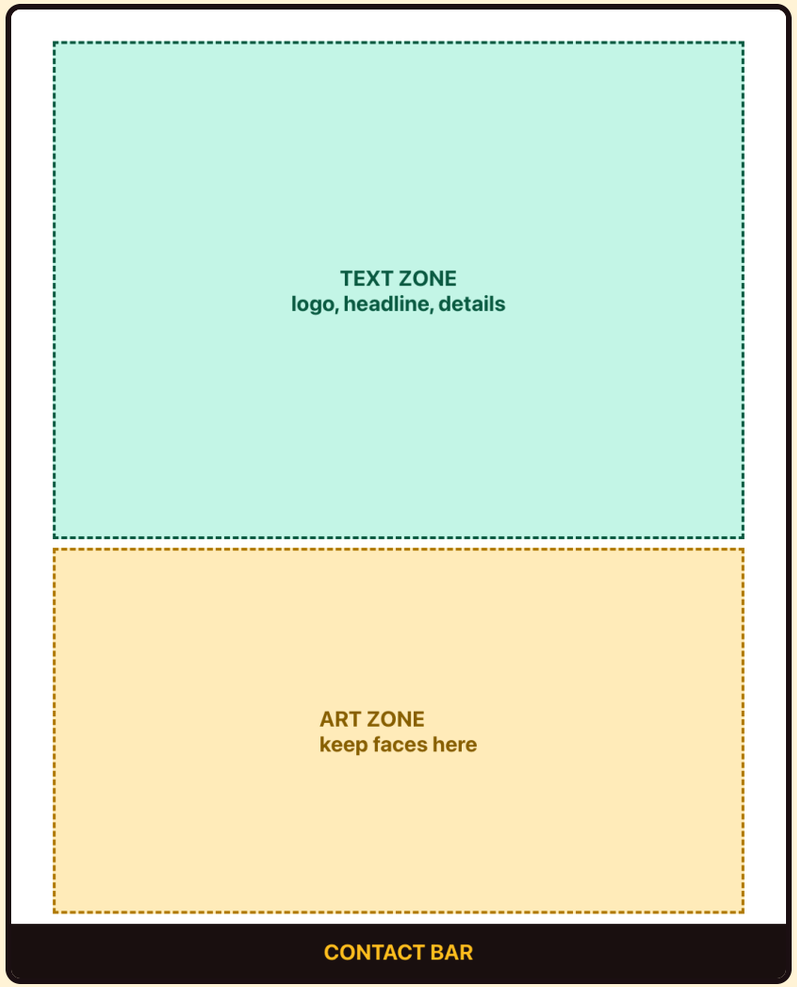

Scenes are illustrations with no text and empty space at the top. **Sunbursts** are plain backgrounds in six colours and four sizes.

05-stickers has starbursts, bells, cookies and more, for dropping on any design. **09-qr-codes** has one for each page.

MAKE A NEW POST IN CANVA

1. Create a design at **1080 × 1350** (feed) or **1080 × 1920** (story).
2. Upload a background from **04-backgrounds** and fit it to the page.
3. Add **jinglefest-logo-neon-cream.png** top left, tilted as it is.
4. Add a small tag in Anton: Ink box, Marigold text.
5. Add the headline in Anton capitals. Cream and Marigold, with an Ink outline.
6. Add details on a Cream rounded box in Bricolage Grotesque.
7. Add the contact bar: Ink strip, web address in Marigold, phone numbers in Cream.
8. Add the matching QR code from **09-qr-codes** on a white tile, at least 170px wide.
9. Check everything against the **approved facts** page.

APPROVED FACTS

Not decided, don't advertise: fireworks, paintball, AirPods giveaway, entry fee or coupons, other kids' competitions.

BEFORE YOU POST

- Date, time and place match the approved facts
- The web address and phone numbers are right
- The headline is readable at phone size
- On stories, nothing important is in the top 220px or bottom 320px
- No stray letters in Gemini art
- Scarcity claims are true right now
- Photos of real children have a parent's permission
